

## 2018 Beef Systems Management Calendar

Alabama Beef Systems created a management calendar for producers. Each month a producer is highlighted and they discuss different management techniques they utilize on their operation as well as Extension programs that they use.

On the 21<sup>st</sup> of each month I post a graphic, made in Canva, which highlights the producer of the month.

### Do you have your 2018 Beef Systems Calendar?

Contact your local Animal Science and Forages Regional Extension Agent to get your new calendar full of beef management tips from Alabama beef producers and Extension agents.

### John English

GENERAL MANAGER, PERDIDO RIVER FARMS  
POARCH BAND OF CREEK INDIANS  
PARTICIPANT IN BEEF QUALITY ASSURANCE PROGRAM

"The Beef Quality Assurance Program has taught us about proper handling, reducing stress, identifying injection sites, loading and transporting, and thinking down the road to marketability."

## Brenda Glover

REGIONAL EXTENSION AGENT, ANIMAL SCIENCE AND FORAGES  
STOCKER PRODUCER

"Working with cattle producers is always a learning experience, but i have learned that what works on one farm doesn't always work on the next. Producers have to do what works best for their management style and practices to be economically viable."

## Tommy Martin

TRIPLE M FARM  
ACTIVE PARTICIPANT IN ALABAMA BCIA  
RETIRED FROM ALFA

"I have a controlled calving period. Calves begin to be born around Oct. 1 and are through by Dec. 10."
